

Sleeper Oil

Wood protection

General

Sleeper oil is a decay inhibiting oil based on genuine wood tar, giving it a characteristical smell which will decrease in time.

Range of application

Sleeper oil provides effectively long term decay protection for all types of wood, such as sleepers, fences, poles, etc.

Instructions for use

The surface must be dry, clean and free of loose particles. If the wood absorbes well an additional application will provide extra effective protection. Can cause allergy at skin contact. Use protective gloves.

Technical data

Colour:	brownish black
Density:	880 kg/m ³
Dry content:	40%
Flash point:	63° C
Drying time:	ca 8 hours at 20°

Issue:000531
